WACO family and Friends

Thought of the day: ☺

Think about what you think about, all thoughts are not worth thinking about.

We are planning on having a cruise evening at Richard's Little Dairy Queen on Saturday May 23rd. I believe that most of you know where it is, Lincoln and George Washington Boulevard. I think we are going to meet there around 6:30, this may change but I will let you know if it does. There will be FREE ice cream for friends and family of members. If it turns out to be a rainy day, we will probably move the date and time.

We are going to plan a work day on our project 67 for next week sometime. I hope that Gary will pick a date that works for him and then I will let everyone know more.

Unless the date changes again it looks like we have a **swap meet** coming up at the end of May. We have a large booth spot reserved at this swap meet so please plan ahead. See below.

Do not forget to register for the **Midwest Chevelle Regionals** in KC this year. I mailed in my registration on Friday. More information below.

Richard Bartel shared the next three items with me.

Just received word today that the Sedgwick County Fair that was scheduled for July 8th – 11th for 2020 has been cancelled. They will resume next year as planned depending on COVID-19.

If you are looking for information on the Covid-19 stuff, here you go. Pretty Cool link if looking for information. <https://www.worldometers.info/coronavirus/>

I called Sedgwick County and was given this information below on how the state is to phase back open.

- Currently the state of Kansas is in Phase 1 – no more than 10 people can gather at one time.
- Phase 2 will begin 5/18/20 – no more than 30 people can gather at one time.
- Phase 3 will begin 6/1/20 – no more than 90 people can gather at one time.
- Phase 4 will begin 6/15/20 – This Phase is called Phase-Out and everyone can return back to normal

The next couple of items were supplied by **Doug Stukey** as part of Doug's Corner.

I'm sending this to the officers because I know you have the time and need the humor. Don't let Gary Osman see how they fixed the trunk pan, I never seen anyone use that much expanding foam. Grab a drink and hold your side. <https://www.youtube.com/watch?v=RXc4TL0HSDM>

I came across this and wanted to share. Dennis Gage does a good job interviewing Ernie Adams on the attached video on dwarf cars. I have a love for this kind of stuff. Most of you don't know I designed an American version of the Morgan super sport. The Morgan is a handmade English sports car that can move as fast as a Ferrari. I built a ¼ inch per foot scale mock up and full size drawings for a tubular chassis and Mustang II suspension. The English version has lever action shocks and ash frame construction making it a raw and rough riding little screamer. I liked the looks of it though and wanted to improve it to USA standards. I had bought a 1978 running mustang and stripped it for its bones and my growing family got in the way so that dream went to the attic and the parts got resold. Ernie Adams, the builder in the video, is the real deal. His first home built was constructed from nine old refrigerators. Built his own English wheel and dies. Ernie is a testament to you don't need a big garage to build cool stuff. His shop is in the back of a trailer park. <https://www.youtube.com/watch?v=SDnGo14X46M>

I laughed so hard after my brother sent this to me. Warning if you feel changing a Harley Davidson over with Chinese parts is sacrilege that's what you will be seeing in this video. It's so stupid why would anyone create a Harbor Davidson, sick. I started laughing when I imagined someone picking up there date on this thing and having to pull start it to leave. V twins make sweet music I don't care about fuel economy. This is one bike I bet you'll never see at "The Chill". Hold your side if you read the comment's URL Link attached.

Speaking of getting together we need to firm up our plans on what we are going to do for our next meeting, WACO luncheon and our House of Schwan party.

Is anyone interested in buying a WACO banner to display with their car? If you have seen the banner that Doug has displayed with his 66, that is basically what I am talking about. They will be around \$30. Please let me know if you are interested in getting one. They make great garage wall art.

David Hime made a great suggestion. We need to put more information on our Tech area on our web site. So, if you have some good information that we need to post, please let me know.

If anyone has been working on something and would like to write up something on how they did whatever they were doing, please send it to me.

SEND ME SOMETHING TO PUT IN OUR NEXT WACO UPDATE.

Several of our members have 64 or 65 2 door station wagons. Dale McIntosh has a new web site for those 2 door wagons.

<http://300wagons.macswebs.com/> I would like to encourage everyone to register their wagons on his site.

I know that it takes a little time to look up the information but I think it is a good thing to get your cars registered even if the car is not done. Please take the time to get registered.

It is a new year so that means that most of us **need to renew our memberships**. You can renew at any of our meetings or mail a check to WACO, 7550 N Greenwich, Wichita KS 67226. Keep the club strong by renewing yearly.

I do not know how many of the events that we list here in our update and our web site are still going on. So if you hear of any closures, please let me know.
